

# We Have the Right Equipment for Your Next Job or Project

At Sprint Waste, we believe a company that provides rental and leasing services is measured in large part by the equipment that shows up at your site.

That's why we've aggressively invested in the container and tank rental business, buying millions of dollars of state-of-the-art equipment.

The average age of our rental fleet is 2.5 years.

## Tank and Container Rentals

One of the youngest rental fleets in the industry

### Almost 7,500 Pieces of Equipment and Rolling Stock in the Gulf Coast Area

- 500-bbl frac tanks and acid tanks
- Crude trailers
- DOT 307/407 stainless steel trailers
- Rolloff containers—roll-tarp, dewater and vacuum types
- Front-load containers
- 130-bbl vacuum trailers
- 70-bbl trucks
- Port-o-lets
- Vapor recovery equipment
- Containments, hoses and ancillaries

Sprint Waste's commitment to quality ensures that all rental containers are inspected and/or hydrotested before they arrive at your facility.

## METAL LID BOXES

- 20- and 25-yd boxes available
- Excellent for wet solids and sludges
- Split top: two 68-in. x 90-in. metal rolling lids spring loaded, self raising
- Coated inside and out with direct-to-metal, rust-inhibiting acrylic enamel

## HYBRID BOXES AND SPECIALTY CONTAINERS

- Specialty boxes to meet your every need, including asbestos, hybrid, etc.
- Ask about our new hybrid box, utilized for vacuum container service at HPP Recycles!

## TANKER TRAILERS

- Stainless steel 7,000-gal DOT 307/407 trailers, 180-bbl crude trailers and 130-bbl carbon steel vacuum trailers available
- Insulated and noninsulated; liquid level gauge
- Vapor recovery capability

## POLY TANKS

- 6,500-gal high-density cross-linked polyethylene
- Two 4-ft butterfly valves on bottom
- Delivered and set up without crane

## FRAC TANKS

- Round-bottom, open-top, mini, acid or steam coil fracs available
- 250-400 bbl (13,125-21,000 gallon)
- Epoxy lined or bare steel
- Level Indicator
- Sample hatch design located on roof eliminates the need to walk on top

## DEWATERING BOXES

- 25-yd sizes available
- Roll-tarp, metal lid and vacuum types
- Solid dewatering filters of various sizes
- Reduces transport and disposal costs by freeing water from sludge and slurries; 6-in. washout ports

## ANCILLARIES AND NONCONTAINER RENTALS

- 160-gal bubble-up scrubbers and heavy-duty carbon canisters (700-lb capacity) available for vapor recovery needs
- A full line of sanitation equipment and service options
- 12x12, x25, x50 ft liquid containments
- Chemical and stainless hoses

## ROLL-TARP BOXES

- 20-, 25- and 30-yd sizes available
- Sealed rear door keeps container water tight
- Disposable liners available for easier dumping

## VACUUM BOXES

- 25-yd sizes available
- Excellent for liquids and wet sludges
- Vapor-tight seals around all doors and manways, no emissions
- 8-in. flange on front/back; 21-in. manway on top

## TRASH BOXES

- 10-, 20-, 25-, 30- and 40-yd sizes available
- Designed for general trash and nonhazardous solid waste
- No seal around door so liquids drain freely

## Options to Fit Your Needs and Lower Your Costs

Sprint Waste is focused on providing customers better visibility on waste containers throughout the solid waste management life cycle.

As equipment moves along each point in this cycle there are natural tendencies for equipment to get "lost" or forgotten, incurring large rental charges. Traditional container rental companies have no incentive to help manage or reduce these costs; in fact, they often benefit from the inefficiencies of their own systems.

However, as an integrated waste hauler and equipment rental company, Sprint Waste is uniquely positioned to combat these inefficiencies and help our customers manage and reduce these unnecessary costs. As a part of our SOS<sup>SM</sup> waste management program, Sprint Waste can offer a wide array of tracking and reporting options to help optimize your operations.
