

***Personalized Solutions.  
Personalized Service.***

Houston's Largest Privately  
Owned Waste Company

HOUSTON'S SOLID WASTE  
MANAGEMENT HAS BEEN  
AN INTEGRAL PART OF  
SPRINT'S OPERATIONS  
FOR OVER 25 YEARS.  
THE KNOWLEDGE,  
EXPERTISE, AND EXPERIENCE  
GAINED THROUGHOUT  
THESE YEARS HAVE  
ENABLED SPRINT WASTE  
TO BECOME THE LARGEST  
PRIVATELY OWNED  
WASTE SERVICES  
COMPANY IN HOUSTON.

### **So why hire a Houston-based waste management company rather than a national chain?**

When you call Sprint Waste, you will speak directly to a local operator who is knowledgeable and familiar with the Greater Houston area.

When you need immediate service, Sprint Waste can deliver a quick and convenient localized solution.

When you schedule a set pick-up time with one of Sprint Waste's local operators, our trucks will show up on time.

When you need a tailored solution, a Sprint Waste representative will meet you on-site to develop customized services to meet your specific needs.

Our customers rely on us to help define the best possible solutions. We take

satisfaction in being able to help customers identify their specific needs, and we work hard to implement services tailored to each and every situation. No job is too small or too large when it comes to satisfying the needs of our customers.

## Temporary Waste Services

Sprint Waste is a leading specialist in delivering temporary waste management solutions.

From individual projects to multi-site operations,

we ensure that your waste stream delivers maximum cost and tax benefits while meeting full government regulations and complies with corporate social responsibility.

Our in-depth knowledge and experience has helped us build an excellent reputation of quality services supplied to residential

and commercial property developers and builders throughout the Greater Houston area. We have managed temporary waste services for a tremendous number of job sites. Our ability to successfully manage diverse projects has proven invaluable to our construction partners.

### Roll-Off Service

Roll-off containers are used on both a temporary and permanent basis for bulky, construction-type material. Sizes include 20 yd, 30 yd, and 40 yd heavy-duty steel containers. Sprint Waste has the right size container and the ability to meet your schedule for delivery and pick-up.

## Personalized Solutions. Personalized Service.

Sprint Waste prides itself on providing the highest level of customer service, living up to commitments and completing jobs as promised. Whether you are a business looking for a permanent solution or a general contractor with a temporary need, Sprint Waste has the containers and services to meet your requirements. We offer a full range of waste collection services from traditional roll-off boxes and front-load containers to garbage compactors and recycling and demolition services. Additionally, the company provides specialized waste management services for refineries and chemical plants. Other Sprint Waste services include:

- Pick-up schedule of up to 6 days a week
- On-time pick-up
- Flexible service schedules
- Pick-up and delivery throughout the entire Greater Houston area
- Same-day service to handle unexpected waste needs
- Local operators to answer your calls

Our friendly and experienced sales team can help you decide how to safely dispose of your waste. Sprint Waste is a phone call away and ready to deal with any form of waste removal.

Providing personalized solutions and service to Houstonians is how we continue to grow. Let Sprint Waste provide you with 24-hour turn-around; reasonable delivery windows that fit your schedule; and localized, personal service.

## Permanent Waste Services

Sprint Waste provides permanent waste services to retail stores, municipalities, manufacturing plants, shopping centers, construction companies, distribution centers, and other institutions and businesses.

We are very flexible. If your container is inaccessible, we don't just leave it. We will contact you so we can provide you with the service you need when you need it. Also, if you fill up your container unexpectedly, just call us. We will do our best to accommodate you, and in many cases we will be able to provide you with same-day pick-up service.

### Front-Load Service

Sprint Waste's front-load service is ideal for apartments, retail businesses, schools, and customers that generate smaller amounts of trash on a regular basis. This service can be provided using a wide variety of container sizes (2, 4, 6, or 8 yd) and a pick-up schedule of up to 6 days a week.

### Compactor Service

Sprint Waste's compactors are designed to handle permanent, high-volume applications in the most efficient manner. These systems work well in heavy commercial and light industrial applications as well as grocery stores

and restaurants. Sprint Waste can provide a full-service lease for any type of compactor.

Tell us how we may best serve you. If you are tired of poor treatment, no-show Dumpster delivery orders, missed trash pick-ups, or hidden fees and charges, call us today. We are dedicated to your satisfaction.

## Demolition Services

Sprint Waste has 60 yd demolition trailers for hauling material from demolition or land-clearing sites. These heavy-duty trailers make removal of large, bulky materials easy and efficient. Other construction and demolition waste services offered include:

- LEED-compliant waste management
- Demolition debris removal from residential and commercial structures
- Stationary compactors, ideal for industrial/commercial waste streams; and
- Demolition hauling - major and minor tonnage.

When the project involves the removal of all building structures, we will remediate the site of hazardous materials and remove all of the building improvements, including, where appropriate, the recycling of materials. This service generally requires "live loading" by the customer, but Sprint Waste can also arrange a turnkey operation and handle the entire demolition project.

## Landfill

To complete the waste management circle, Sprint Waste owns and operates its own landfill.

Our Sprint Fort Bend County Landfill is a TNRCC-approved TYPE IV Construction and Demolition Landfill located in Richmond, Texas, MSW Permit No. 1797A.

The number-one priority at the landfill is safety and operating in an environmentally friendly manner. The landfill has been managed with these priorities in mind while operating within all state and federal guidelines since its opening in 1982. At current volumes, the landfill has 40+ years of life remaining.

The Sprint Fort Bend County Landfill is open to the public and accepts most construction and demolition debris.

### Examples of materials accepted at the landfill:

- Wood
- Lumber
- Trees
- Wire
- Dirt
- Concrete
- Bricks
- Plastic
- Metals
- Green Waste
- Roofing Materials
- Old Furniture
- Cloth Linen Material
- Appliances with the Freon Removed

### Examples of materials **NOT** accepted at the landfill:

- Hazardous Waste
- Medical Waste
- Liquids
- Sludge
- Paints
- Whole Tires
- Batteries
- Drums
- Asbestos-Containing Material
- Household Trash (i.e., food, food products, food containers, etc.)

## Safety

At Sprint Waste, safety and regulatory compliance are of paramount importance. We strive to conduct our business in a safe, injury-free and environmentally responsible manner.

Our staff is trained in the latest regulations, laws, and procedures. All drivers are licensed according to strict Department of Transportation requirements and operate within those rules.

But our safety commitment goes beyond compliance. Safety does not just happen; it requires commitment by everyone, from our employees to upper management.

Sprint Waste's goal is to eliminate work-related safety and health injuries to employees and to provide a safe environment for the community. To achieve this goal, we concentrate our efforts in the following areas:

1. Provide employee training and education
2. Maintain active in-house safety meetings
3. Assess hazards in the workplace
4. Maintain safe operating equipment
5. Associate with community safety and health organizations
